Strategy for the future – Timber City 2012

Wooden city 2012

A network of Swedish cities
cooperating to
develop the use of wood
in high buildings

Wooden city 2012

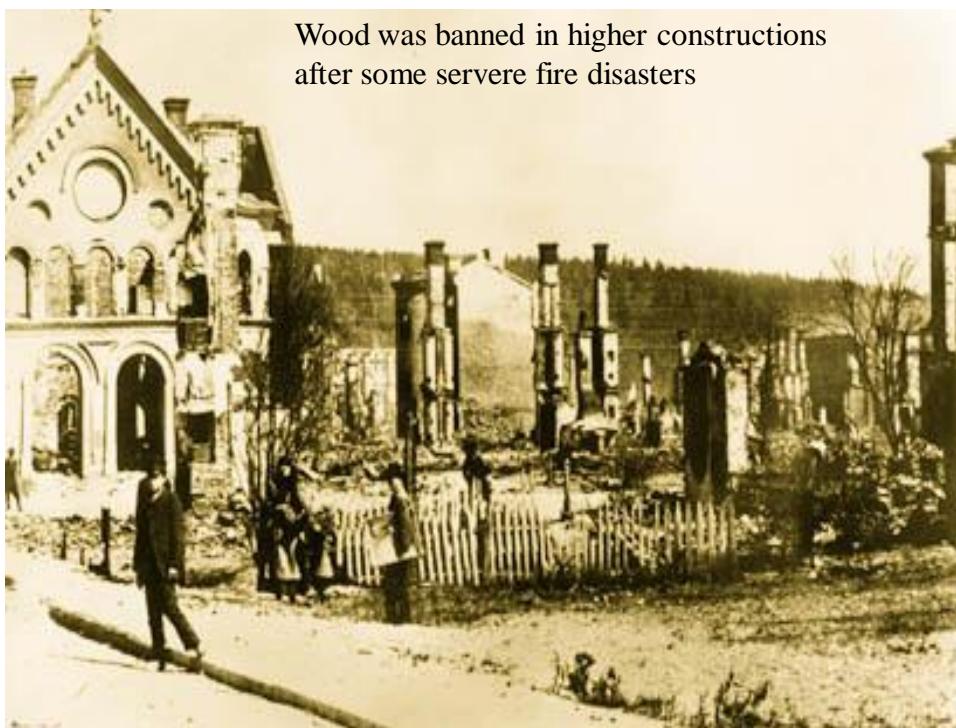

- 4 regions
- 20 cities
- Region SE:
 - Växjö
 - Eksjö
 - Västervik

Wood buildings has a long and obvious tradition in Sweden

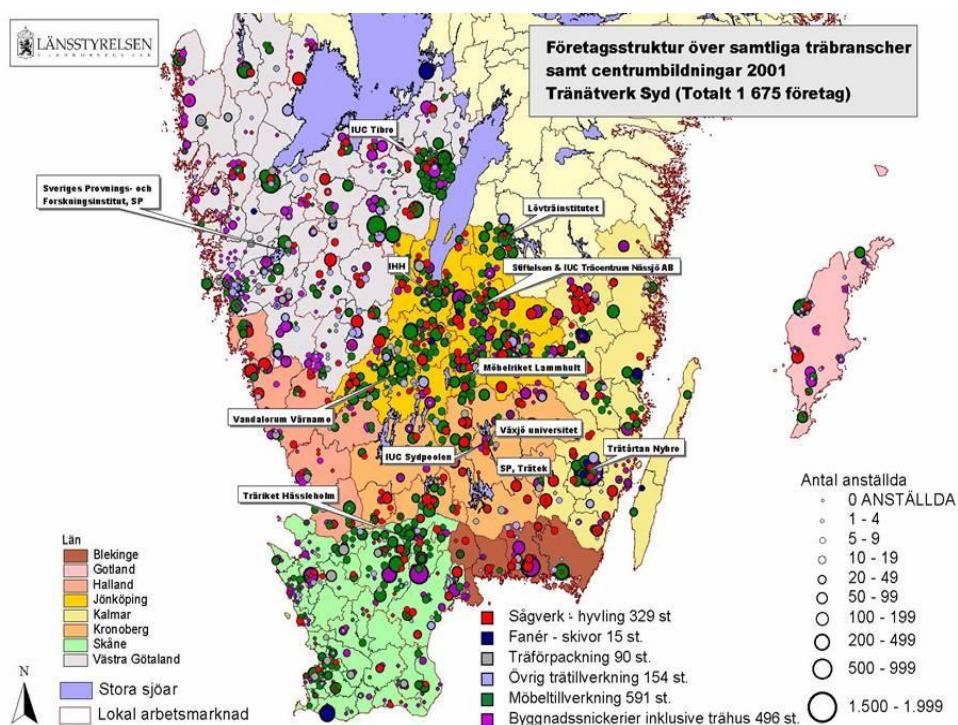

Wood isn't regarded as a simple material

Wood was banned in higher constructions
after some severe fire disasters

Välludden, Swedens first modern
5 stories wood house

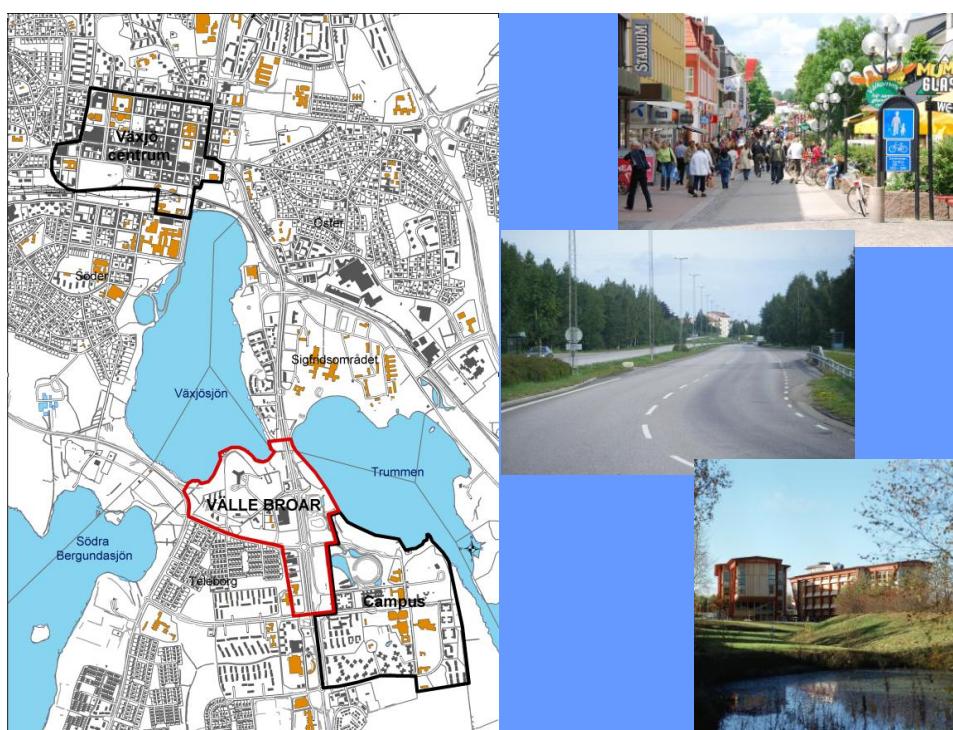

Växjö
kommun

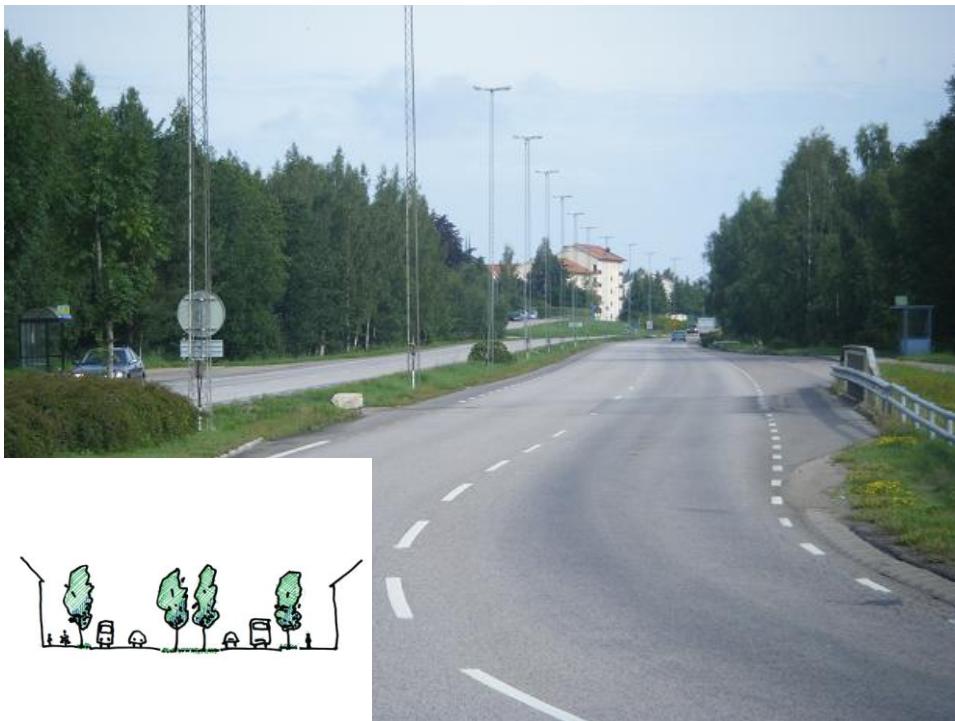

Mer trä i byggandet

Anslaget av kommunfullmäktige 2005-02-17 §25

A local strategy for promoting wood in high constructions
